

Student Illness Policy

Parents, please remember our attendance policy due to illness. Here is what's listed in the Parent Handbook:

In order to protect your child and other children at the preschool, we must ask parents no to bring sick children.

Signs that indicate disease or illness include:

- An oral temperature of over 99° F or rectal temperature of over 100° F
- Intestinal illness accompanied by diarrhea or vomiting.
- Sore or discharging eyes or ears, or profuse nasal discharge.

A child must be free of fever for 24 hours without medication. If questionable symptoms are still present, verification from a doctor stating the child is free to return is needed.

Children who are on medication must receive a full 24-hour course of treatment before returning to the preschool.

Also, please remember to make sure we have current phone numbers for you and your emergency contacts in the office, in case there ever is a need to call.
